# ROBOTICS 1

### **FANUC AND ROBOGUIDE**

Monday - 5:30 PM to 8:40 PM

## PYTHON

**ESSENTIALS** 

**Thursday** - 4:20 PM to 6:20 PM

## **FANUC ROBOTICS 1**

#### HANDLING AND ROBOGUIDE

- ♣ Fanuc robots are used by the Tesla factory in Fremont, one of the world's most advanced automotive plants, to the Broccoli growers in the Central Valley.
- ♣ In Fanuc Robotics 1 you will learn the language of Fanuc robots with an online learning net and in-classroom hands-on robot training and RoboGuide projects.
- You will be prepared for a nationally recognized Fanuc Certificate.
- Come join us and see where this class will take you.

### **PYTHON**

#### **ESSENTIALS**

- ♣ No prior knowledge of programming is required
- Python is the very versatile, object-oriented programming language used by startups and tech giants alike.
- ↓ Upon the completion of this course, you will be prepared to take the <u>PCAP Certified Associate in Python programming</u>.

#### **FANUC ROBOTICS 1 on Monday**

**PYTHON** on Thursday
